YEARS EXPERIENCE

Commercial operations & procurement in UAE electronics & LED trade

12–20%

COST SAVINGS

Landed-cost reduction via direct Tier-1 factory sourcing

5+

LANDMARK PROJECTS

Delivered on or ahead of schedule, driving repeat business

PROFESSIONAL SUMMARY

Commercially astute Commercial Operations & Procurement Manager with 14+ years turning global sourcing into margin across the UAE's electronics and LED trade. Proven record building direct Tier-1 factory pipelines that cut landed costs 12–20%, delivering landmark projects ahead of schedule, and owning the full commercial cycle from sourcing and contract negotiation to customs clearance and delivery. Now pairing that commercial instinct with self-built AI automation to strip out software cost and manual work. Open to Commercial Operations, Procurement, and Supply Chain leadership roles across the UAE and GCC.

PROFESSIONAL EXPERIENCE

Commercial Operations & Sales Manager

Jan 2024 – Present

Tultop International FZC LLC | Sharjah, UAE

- **Commercial Ownership:** Own the full commercial cycle for high-volume B2B electronics and LED trade across UAE and GCC — pipeline, quoting, sourcing, and vendor governance — defending gross margin on every order.
- **Cost Leadership:** Restructure vendor quotes, tariff positioning, and contract terms to protect margin and cut delivery variance across regional supply corridors.
- **Process Efficiency:** Dismantled order-to-remittance bottlenecks by fusing procurement, logistics, and sales into a single execution flow, accelerating turnaround on live orders.
- **AI-Assisted Operations:** Building a custom internal CRM and multi-agent automation to remove software overhead and manual data work (detailed below).

Logistics & Procurement Manager

Dec 2015 – Dec 2023

Tultop International FZC LLC | Sharjah, UAE

- **Global Trade:** Ran end-to-end export and re-export supply lines for electrical and electronic goods into demanding corridors including Kenya and the Dutch Caribbean — compliant, documented, and on schedule.
- **Compliance:** Turned customs clearance, cargo-hub inspection, and regulatory compliance into a repeatable standard that kept international distribution moving without hold-ups.
- **Cost Control:** Negotiated freight, service rates, and vessel / flight scheduling against budget, squeezing cost from every shipment while protecting delivery dates.
- **Financial Oversight:** Held tight cost-center and ledger control in Tally ERP; cut inbound packaging waste through re-assembly optimisation.

Sales, Purchase & Operations Manager

Mar 2012 – Jul 2015

Spark Communications L.L.C | Dubai, UAE

- **Sourcing:** Owned import / export sourcing with manufacturers across China, the UK, and the USA — controlling contract compliance and landed-cost matrices.
- **Distribution:** Grew a cross-channel B2B distribution network for mobile accessories across the UAE and Northern Emirates, stabilising supply against fast-shifting demand.
- **Efficiency:** Won competitive freight tariffs and kept accounts reconciled in Tally ERP.

KEY PROJECTS & DEAL HIGHLIGHTS

- **Vincitore Benessere Luxury Landmark, Dubai:** Cut premium inventory costs 15–18% through direct Tier-1 China factory agreements; delivered zero-variance luminaire integration across façade, garden, and parking networks.
- **Al Jaddaf Commercial Tower High-Rise, Dubai:** Drove landed material costs down 12–15% and beat the developer's lead time on IP66/IP67 façade systems — locking in repeat contracts.

- **Private Club & Luxury Villa, Abu Dhabi:** Sliced procurement cost 15–20% by sourcing LED profiles and IP68 pool-lighting direct from component factories, with full electrical-safety compliance.
- **Private Luxury Villa, Al Khawaneej, Dubai:** Cut long-term maintenance cost 20% with corrosion-resistant specifications; handed over 3 days ahead of schedule.
- **Fillit Commercial Office Fit-Out, Oud Metha, Dubai:** Trimmed supplier markups 15% by assembling custom linear grids on-site during a fast-track nighttime install.

AI & AUTOMATION INITIATIVES

Self-initiated and in active development — built to modernise commercial operations and reduce cost.

Quotation & Delivery Automation Software — an internal app that auto-generates client quotations and delivery documentation, cutting turnaround time and errors across the order-to-delivery cycle and removing external software licensing costs.

“CodeOnTheGo” Autonomous Coding Agent — a self-directed AI coding agent that runs continuously (24/7) to build and maintain internal operational tools, reducing reliance on external developers.

Multi-Agent Automation System —a prototype running 16 AI agents in parallel to automate data processing, inventory auditing, and routine operational workflows at scale.

CORE COMPETENCIES

Commercial Operations	Sales Pipeline & Forecasting	Contract Lifecycle Management
Strategic Procurement	Direct Factory Sourcing	Supplier Negotiation
Cost & Margin Optimization	Import / Export & Customs	Freight & Logistics
Vendor & Stakeholder Mgmt	Inventory & Cost Control	Project Procurement & Fit-Out
Cross-Functional Leadership	AI-Assisted Automation	Process Improvement

TOOLS & SYSTEMS

PRODUCTIVITY	BUSINESS SYSTEMS	AI & AUTOMATION
Microsoft Office (Excel, Word, PowerPoint, Outlook), Google Workspace	Tally ERP, Custom-Built CRM, Inventory & Documentation Systems	Multi-Agent Frameworks, Autonomous Coding Agents, LLM Workflow Tools
